CONTENTS OF VOLUME 29

Number 1

Toshiyuki Sueyoshi, Shingo Aoki	1	A use of a nonparametric statistic for DEA frontier shift: the Kruskal and Wallis rank test
R. T. Coupe, A. J. Girling	19	Modelling police success in catching burglars in the act
Ganesh D. Bhatt, Rodney L. Stump	29	An empirically derived model of the role of IS networks in business process improvement initiatives
Paul D. Berger, Nada Nasr Bechwati	49	The allocation of promotion budget to maximize customer equity
Carlos Romero	63	Extended lexicographic goal programming: a unifying approach
Dimitris I. Giokas	73	Greek hospitals: how well their resources are used
Harvey Maylor	85	Assessing the relationship between practice changes and process improvement in new product development
Michael Doumpos, Constantin Zopounidis	97	Assessing financial risks using a multicriteria sorting procedure: the case of country risk assessment
Key Words	111	

Number 2

Richard E. White, Victor Prybutok	113	The relationship between JIT practices and type of production system
François Bergeron, Louis Raymond, Suzanne Rivard	125	Fit in strategic information technology management research: an empirical comparison of perspectives

PII: S0305-0483(01)00051-2

JAMES Y. L. THONG 143 Resource constraints and information systems implementation in Singaporean small businesses

YAO-CHUAN TSAI 157 Comparative analysis of model management and relational database management

MAGGIE C. Y. TAM, V. M. RAO TUMMALA 171 An application of the AHP in vendor selection of a telecommunications system

RONALD W. BOGASCHEWSKY, UDO D. BUSCHER, GERD LINDNER 183 Optimizing multi-stage production with constant lot size and varying number of unequal sized batches

MUAMMER OZER 193 User segmentation of online music services using fuzzy clustering

OTTO ANDERSEN, ARNT BUVIK 207 Inter-firm co-ordination: international versus domestic buyer–seller relationships

Number 3

CHEN-FONG WU 221 The study of global business ethics in East Asia: Taiwanese enterprises in Indonesia as targets

LAUREN B. EDER, MAGID IGBARIA 233 Determinants of intranet diffusion and infusion

SUBHASHISH SAMADDAR 243 The effect of setup time reduction on its variance

R. KOLISCH, R. PADMAN 249 An integrated survey of deterministic project scheduling

H. BRIAN HWARNG 273 Insights into neural-network forecasting of time series corresponding to ARMA(p,q) structures

CONSTANTINE LOUCOPOULOS 291 Three-group classification with unequal misclassification costs: a mathematical programming approach

Number 4

Wade D. Cook, Moez Hababou	299	Sales performance measurement in bank branches
Francis E.H. Tay, Lijuan Cao	309	Application of support vector machines in financial time series forecasting
H. Brian Hwarng, H.T. Ang	319	A simple neural network for ARMA(p,q) time series
Satya S. Chakravorty	335	An evaluation of the DBR control mechanism in a job shop environment
A. Ghobadian, D. Gallear	343	TQM implementation: an empirical examination and proposed generic model
Parag C. Pendharkar	361	An empirical study of design and testing of hybrid evolutionary–neural approach for classification

Number 5

Andy Lockett, Mike Wright	375	The syndication of venture capital investments
Barbara D. Klein	391	Detecting errors in data: clarification of the impact of base rate expectations and incentives
Yu-Hern Chang, Chung-Hsing Yeh	405	Evaluating airline competitiveness using multiattribute decision making
F.J. Arcelus, Nita H. Shah, G. Srinivasan	417	Retailer's response to special sales: price discount vs. trade credit
Eric T.G. Wang	429	Linking organizational context with structure: a preliminary investigation of the information processing view
Thompson S.H. Teo, Joo Eng Lee-Partridge	445	Effects of error factors and prior incremental practice on spreadsheet error detection: an experimental study

Number 6

M.J. Álvarez Gil, J. Burgos Jiménez, J.J. Céspedes Lorente	457	An analysis of environmental management, organizational context and performance of Spanish hotels
So Young Sohn, Hong Choi	473	Analysis of advertising lifetime for mobile phone
R. Dixon, P.M. Trenchard	479	Bipolar value-driven joint product costing
F.-K. Wang, W. Lee	491	Learning curve analysis in total productive maintenance
Emmanuel Néron, Philippe Baptiste, Jatinder N.D. Gupta	501	Solving hybrid flow shop problem using energetic reasoning and global operations
Hussein M. Saber, Jay B. Ghosh	513	Assigning students to academic majors
Hesan A. Quazi, Yee-Koon Khoo, Chin-Meng Tan, Poh-Seng Wong	525	Motivation for ISO 14000 certification: development of a predictive model
P.A.J. Berends, A.G.L. Romme	543	Cyclicality of capital-intensive industries: a system dynamics simulation study of the paper industry
Paul A. Bottomley, John R. Doyle	553	A comparison of three weight elicitation methods: good, better, and best
Malcolm J. Beynon, Michael J. Peel	561	Variable precision rough set theory and data discretisation: an application to corporate failure prediction
Adar A. Kalir, Subhash C. Sarin	577	A near-optimal heuristic for the sequencing problem in multiple-batch flow-shops with small equal sublots
Guido Capaldo, Giuseppe Zollo	585	Applying fuzzy logic to personnel assessment: a case study

JACEK BŁAŻEWICZ, JOACHIM BREIT, PIOTR FORMANOWICZ, WIESŁAW KUBIAK, GÜNTER SCHMIDT 599 Heuristic algorithms for the two-machine flow-shop with limited machine availability

Contents of Volume 29 III
